	Glow-o-saurus Dino Friends <i>Lime</i> SKU: 12973G-43	3-7/8 Yard	Backing

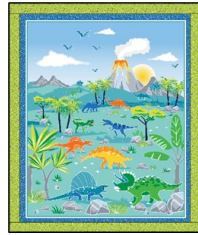

*HST=Half Square Triangle

*Strips longer than 43" may need to be pieced to get length needed

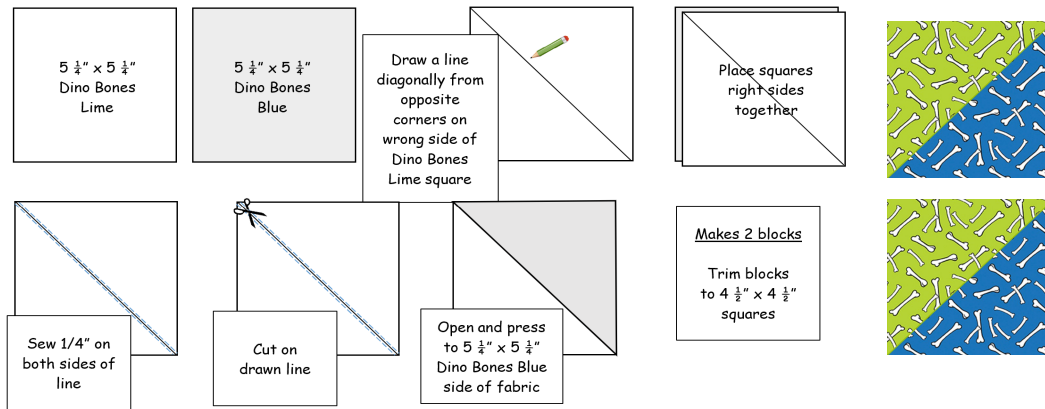

SEWING/APPLIQUE INSTRUCTIONS: Read through pattern before beginning. All seams are sewn at 1/4".

STEP 1: CENTER BLOCK—Trim panel to 36" x 44". Press to remove wrinkles if needed.

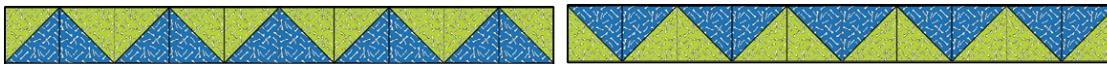

STEP 2: BORDER A—With right sides together, sew 2-3/4" x 44" Dino Bones Lime to left and right of Center Block. Press seams towards borders. With right sides together, sew 2-3/4" x 40-1/2" Dino Bones Lime to top and bottom of Center Block. Press seams down.

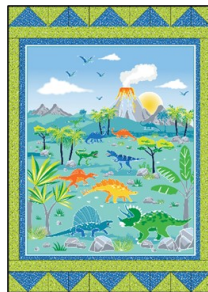

STEP 3: BORDER B HSTs - To assemble HSTs, use one 5-1/4" x 5-1/4" Dino Bones Blue square and one 5-1/4" x 5-1/4" Dino Bones Lime square following the directions in the diagram below. This will make two HSTs. Repeat to make a total of 20 HSTs. Trim to 4-1/2" x 4-1/2" squares.

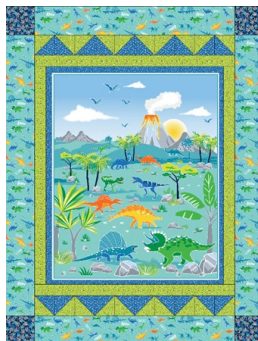

STEP 4: With right sides together, sew HSTs together in order shown below to create two rows. Press seams open.

STEP 5: With right sides together, sew HST rows to top and bottom of Border A in directions shown below. Press seams down.

STEP 6: Border C – With right sides together, sew 6-1/4" x 56-1/2" Dino Friends Aqua strips to left and right of Border B. Press seams towards borders. With right sides together, sew 6-1/4" x 6-1/4" Dino Footprints Navy to each end of 6-1/4" x 40-1/2" Dino Friends Aqua strips. Press seams towards centers. With right sides together, sew strip to top and bottom of Border B; match seams. Press seams down.

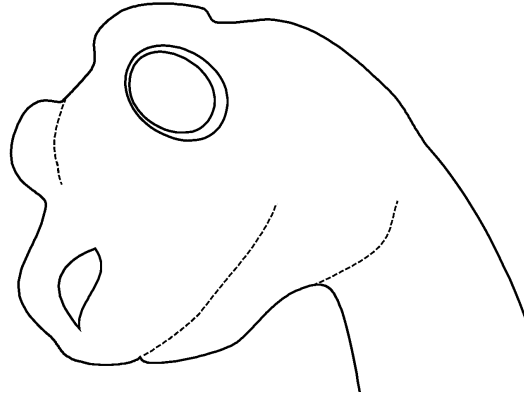

STEP 7: Applique - Trace applique designs on smooth side of iron-on adhesive. *Before tracing, tape sections together if indicated by arrows. Be sure to write the letter of piece on traced designs. Designs are reversed so they will be the correct direction when ironed on fabrics.

STEP 8: Cut around traced applique designs leaving at least a quarter inch from solid line. Iron applique designs (rough side down) to wrong side of fabrics following package directions. Let cool.

STEP 9: Cut out applique pieces on solid lines. Peel off paper liner from the backs of applique pieces. Follow design keys and layouts for correct placement. Place applique, adhesive side down, on right side of fabric. Press according to package directions until entire piece is bonded. Let cool. If indicated, place applique in seam line.

STEP 10: Sew around applique design edges using a straight, zig-zag, or blanket stitch. Embroider lines if indicated.

Applique Tip: When putting together your applique pieces, lay them out on background fabric before ironing in place. Make sure they slightly overlap if indicated in the keys. A heatproof sheet is a great tool for assembling the pieces. Lay them out on the sheet and lightly press them in place (do not do it for too long.) Let cool. Carefully peel off the applique from the sheet and lay it on the right side of your fabric. Press in place.

STEP 11: Finish quilt using your favorite quilting and binding method.

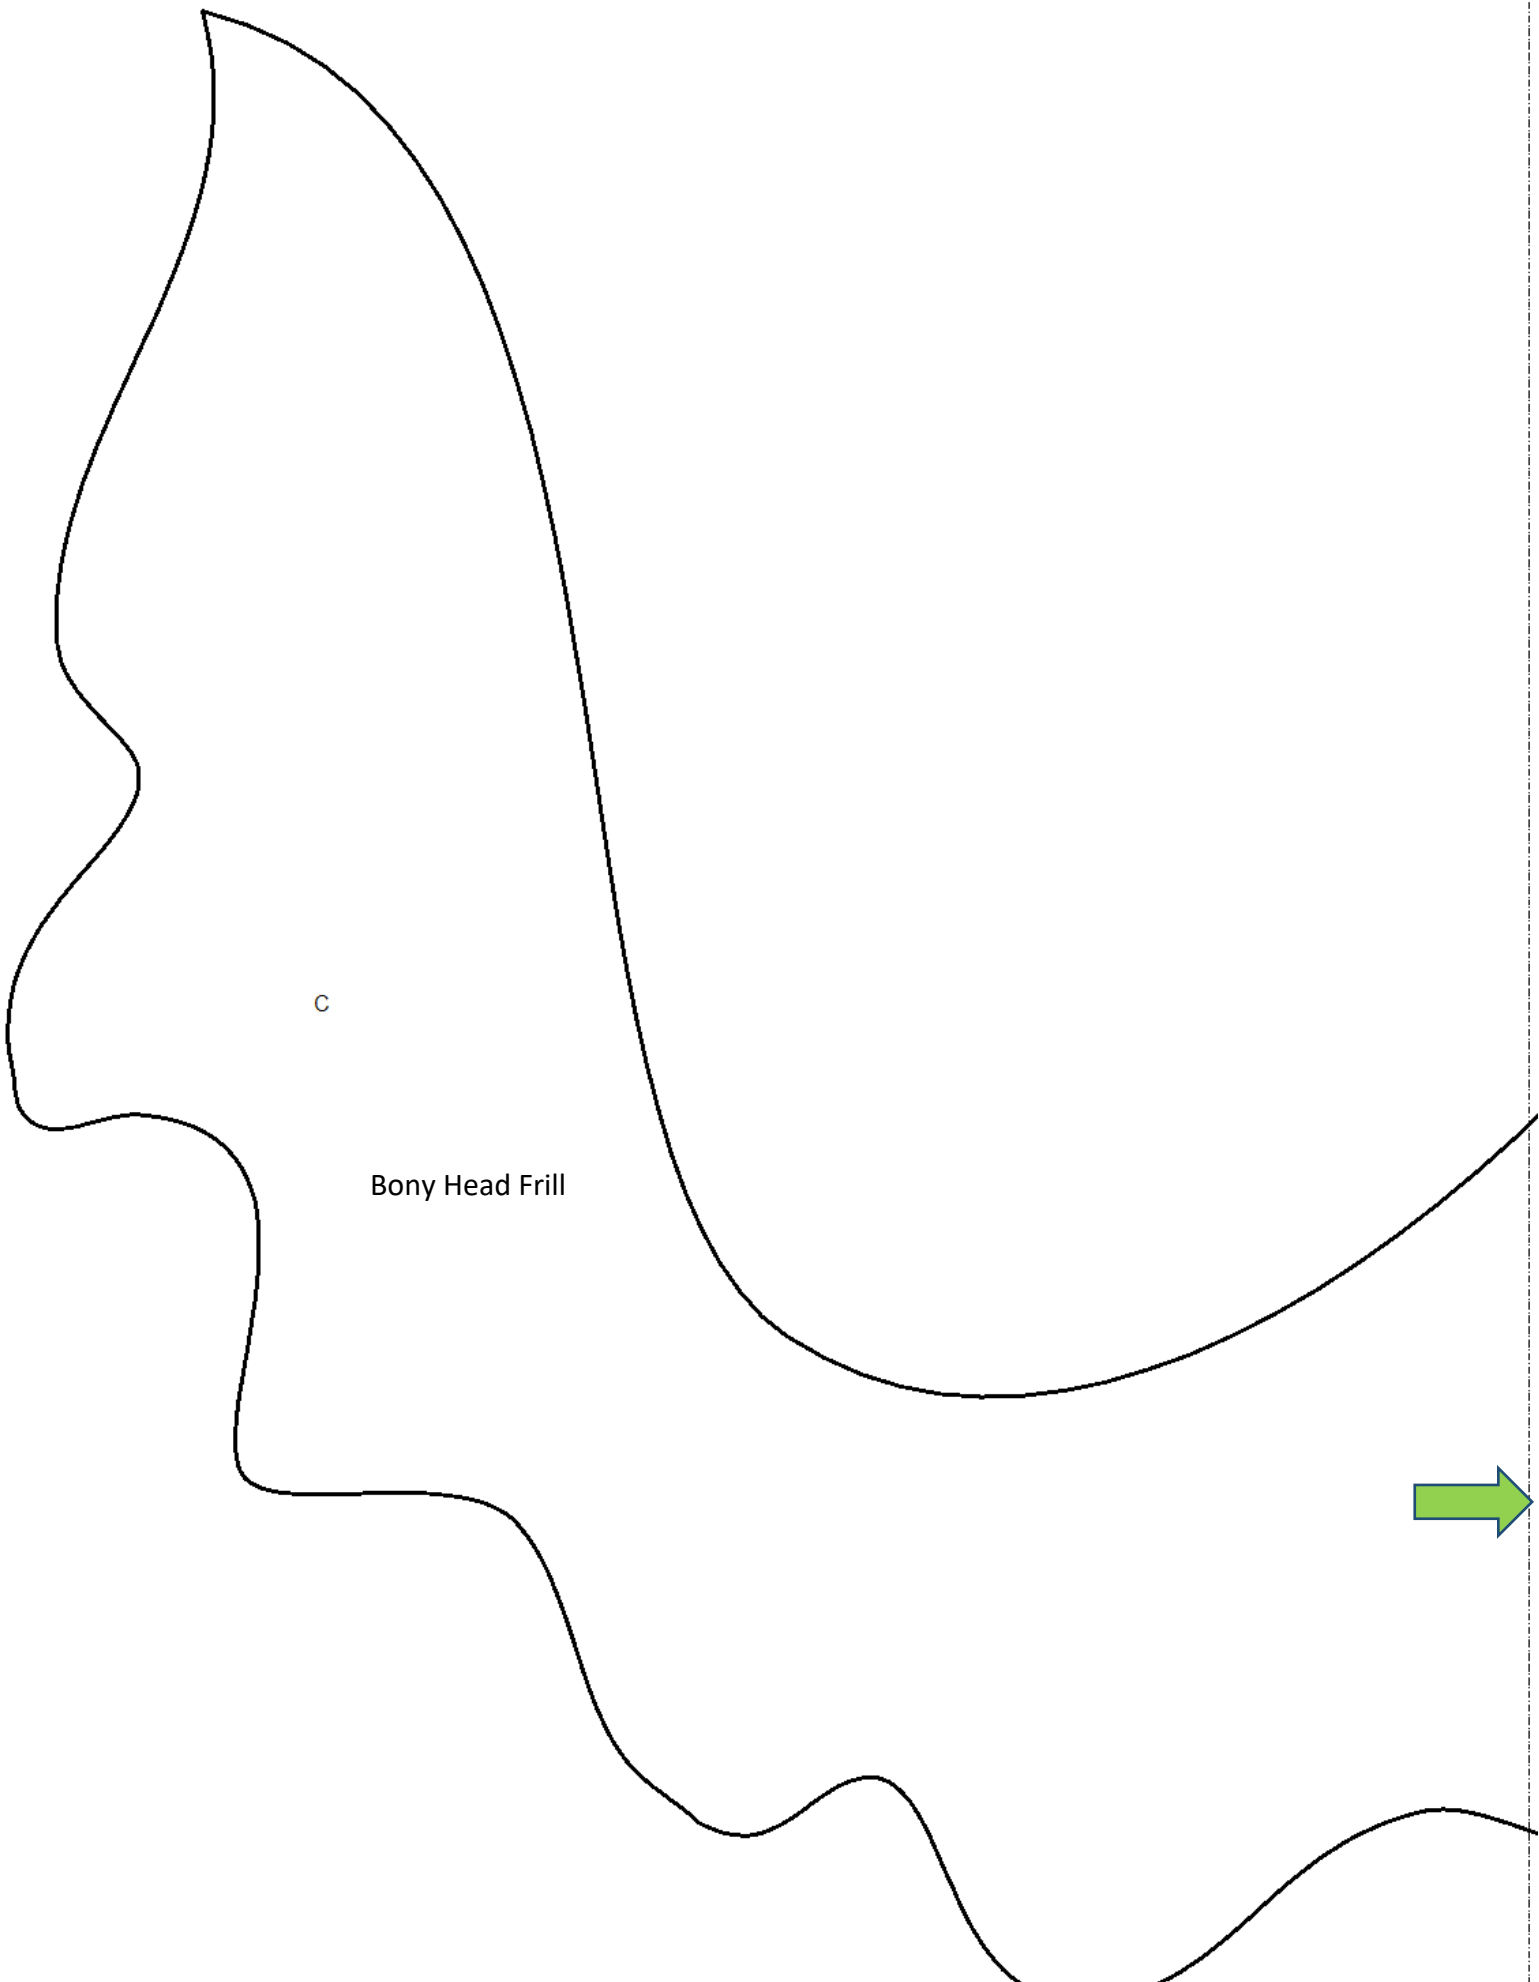

Applique block designs have been reversed for your convenience.
